Well Woman / Well Man Health Check Up

Here at the Avenue Family Practice we offer a screening medical service which is a targeted approach to your health.

This entails completing a medical questionnaire; (can be completed prior to consultation and is available to download on our website: [www.dublingp.ie/Forms/Medical Questionnaire/](http://www.dublingp.ie/Forms/MedicalQuestionnaire/)) followed by a 30 minute consultation with the Doctor to review this along with a full physical exam.

On the same day, you will have blood samples taken (fasting) which will test for:

1. Cholesterol and lipid breakdown
2. Full blood count
3. Kidney function
4. Liver test
5. Thyroid function
6. Iron levels
- 7 . Diabetes screen

The doctor may discuss further bloods which he/she may think useful after the consultation.

You will also have:

8. ECG(Electrocardiogram) which screens for electrical issues /problems with your heart
9. Full breathing test or Spirometry to determine your lung function

You will receive a summary of all of these tests/exams along with the Doctor recommendations approx. two weeks after consultation.

The fee for this full screen is €295 euro and will take about 1 hour for you to complete.
